

## SPECIALTY PRODUCTS

### Anti Weld Spatters Spatter Reducing Liquid

Anti Weld Spatters are liquids used to reduce welding spatter on nozzles, tips, and work pieces. They are designed to effectively protect the work piece from the adherence of spatter by providing a thin layer of protective solution. Anti Weld Spatters can be used for MIG welding, Arc welding, and plasma cutters.

**Anti Weld Spatter 3** is a premium water-based anti spatter. It provides excellent corrosion protection on ferrous metals and is free of solvents, silicones, and is non-flammable

**Anti Weld Spatter 4** is an economical water-based anti spatter. It is compatible with ferrous metals and aluminum. It is free of solvents, silicones, and is non-flammable.

**Anti Weld Spatter 5** is a vegetable oil based anti spatter at is 100% active. It can be used on all metals and is free of solvents, silicones, and is non-flammable
