

SPECIALTY CLEANERS

Resin Cleaner 655

Penetrate & Soften Resins

Consumer Safety With No Sacrifice

Resin Cleaner 655 was designed to remove dried on resins from steel, stainless steel, aluminum, brass, and copper equipment and tools. Blended particularly for consumer safety without sacrificing performance while providing a pleasant citrus odor. Environmentally friendly.

100% Organic

Resin Cleaner 655 is 100% organic and does not contain halogenated hydrocarbons, petroleum hydrocarbons, alcohols or ketones. Unlike methylene chloride based products that evaporate quickly, Resin Cleaner 655 remains on the surface to penetrate and soften the resins. Sufficient time should be allowed for material to penetrate the surface before removing the loosened resin.

Immerse, Spray, or Wipe

Resin Cleaner 655 is a powerful cleaner designed to loosen or remove deposits from mold surfaces or machine parts caused by urethane, and poly acetals. It easily and safely dissolves floor tile mastic, spray adhesives, black mastic, and glues from all surfaces.

Technical Data

appearance	colorless to yellow liquid
odor	citrus odor
specific gravity	0.850
flash point	115°F (TCC)
biodegradable	yes
normal working conc	full strength
normal working temp	ambient

Packaging Options

5 gallon pail
55 gallon drum
330 gallon tote tanks

Other Available TLS Products

Shur Cool® 4045
Heavy-duty semi synthetic metalworking fluid

ID 240
Industrial strength cleaner/degreaser

Shur Cool® 3830
Non-foaming full synthetic coolant for grinding, milling, drilling and other metalworking operations
