

COOLANTS

Shur Cool® 3830

Full Synthetic Metalworking Fluid

Cool and Protected

Shur Cool® 3830 is formulated to make grinding, milling, drilling and other machining operations run more smoothly while providing excellent corrosion protection.

Advantages

- Keeps wheels open & clean
- Protects Copper & Brass
- Seize protection at the tool/part interface
- Improves Finish
- Delivers exceptional rust protection, and lubricity.

Shur Cool 3830 meets all of our coolant requirements and has been the most economical and reliable coolant we have ever used.

COOLANTS

Shur Cool® 3830

Full Synthetic Metalworking Fluid

Metalworking Operations

Shur Cool® 3830 is a light to medium duty full synthetic fluid used for grinding, milling, drilling, and other metalworking operations. Hard water supplies can be used freely without any loss in efficiency.

Exceptional Coolant Performance

Shur Cool® 3830 is transparent, mildly alkaline in character, performs well in most surface grinding operations where residue may be a concern.

Corrosion Protection & More

Shur Cool® 3830 provides exceptional corrosion protection, boundary lubrication and surface tension reduction. It is non-foaming and contains an excellent antimicrobial package.

Technical Data

physical Form	Clear green liquid
foaming Tendency	Low
maximum Solubility	Complete
rinsability	Excellent
pH (concentrate)	8.2 - 8.7

Application Rates

Grinding	2 - 5%
Tapping, Milling, Drilling, Cutoff, Sawing	5 - 10%

Packaging Options

5 gallon pail
55 gallon drum
330 gallon tote tanks

Other Available TLS Products

Shur Draw® 420
Heavy-Duty semisynthetic drawing compound

Shur Cut® 429
Soluble oil for most cutting and milling operations

Shur Cool® 5010
Low-foaming top of the line synthetic coolant for steel, stainless steel and aluminium
